I am a lead data scientist with expertise in genAI, machine learning, natural language processing.
A start-up creator, software engineer, author of several data science books and courses.

AI, Data Science Consultant 2018-25

Tech expertise from classic ML, DL and NLP to genAI and agentic AI

- Chatbot for student interview training and eval. Google ADK, Gemini, Codex. (in dev.)
- Moliere.love: educational web & mobile app; full end-to-end development with ClaudeCode.
- Teacher in IA, MLops, data science, database) for SciencesPo Paris, Polytechnique, Openclassrooms, Engineering schools (EPITA, IPSA, EFREI)
- Design and evaluation of a RAG on the EU Ai-act (Langchain)
- Coaching data science team in banking, HR and EdTech
- Demand planning for household appliances for Electrolux
- Social networks: Hate speech detection on Youtube with SciencePo Medialab
- Audio-Speech: Speech transcription in healthcare (U. of Columbia); Music classification (Splice)

Lead Data Scientist Karhoo, Renault group, London 2022

Marketplace for worldwide taxi rides. Team lead on mobility projects: pricing, coverage optimisation, cancellation forecasting. Transitioned from bespoke models to Vertex AI AutoML
Tech: GCP, BigQuery, MLflow, Vertex AI

Lead Data Scientist Praexo, Paris 2021

Fintech startup facilitating investor relations and investor targeting. Team lead, we launched ML services in production on AWS Lambda: unsupervised NLP and investor recommendation system.

Lead Data Scientist Docent Healthcare, Boston 2017

Building predictive models of hospital patient satisfaction using NLP for information extraction over noisy interview transcripts. Working with HCAHPS and EMR data.

Software & Data Lead Berklee Online, Boston 2011-16

- Data Lead: I bootstrapped the data analysis activity across the company: enrollment forecasting; pricing strategy; predictive analytics on student admissions in Salesforce.
- Software Manager: data integration engineer and team lead. Ruby, RabbitMQ, micro services, postgres, tcl/tk
- Lead developer: service oriented architecture projects, legacy code and database. 3rd party platform integration: ERP, Salesforce, Informatica, ...

Education

- Google Machine Learning Engineer certification (in preparation)
- Ph.D. Signal Processing - Telecom ParisTech, 1995 Design of Stochastic Gradient Algorithms for echo cancellation
- M.S Signal processing - Telecom ParisTech - Paris 1992

Technically speaking

- github.com/alexisperrier, github.com/skatai
- Google Cloud Platform: Vertex AI, AutoML, GCE, ADK, A2A; AWS: Lambda, EC2
- AI, NLP, Deep Learning, Machine Learning, Spacy, Scikit-learn, Tensorflow, LangChain
- MLOps: MLops, Airflow, CI/CD gitflow, Docker
- Statistics, tests, distributions, bayesian inference, linear regression
- Forecasting, Time series and signal processing.
- Python, Shell scripting, Ruby, Go, tcl/tk, Git, R, React, node.js
- Database: Big Query, Postgresql, Mysql, Mongodb, Neo4j

Publications

Books

- Effective Amazon Machine Learning, Apr. 17 - ISBN 9781785883231 - PacktPub
- Machine Learning on Google Cloud Platform, Apr. 18, ISBN 9781788393485 - PacktPub

Online Courses

- All current courses are available on htttps://skatai.com
- Intro to NLP; Intro to ML; Design Statistical Models; Python for data - Openclassrooms
- Data Science on the Google Cloud Platform - INE
- Building Domain Specific Language Models – Manning, LiveProject 2020

Papers

- Cartographier l'empreinte antisémite sur YouTube, 30e rapport CNCDH SciencePo 2021
- The Effects of Disaggregated Factors of YouTube Recommendations, IC2S2 2020;
- Speech recognition for decision making in primary care, U. Columbia, DOI 10.1371, 2022
- Behind the Scenes with MOOCs, The Journal of Continuing Higher Education, Jan 2013
- Contributor to InfoQ, Datacamp, KDnuggets, ODSC, meetups, workshops
- Speaker: State of AI, DMI 2024, 2025, U. of Amsterdam
